

Tuesday 20th July, 2021

Dear Parent/Carer,

I am writing to inform you of our plans to deliver our programmes now that legal Covid restrictions were lifted on the 19th of July.

After reviewing the new guidance for training providers and considering the current very high rates of Covid in the community, we have decided that we will continue with some restrictions at GFT for the time being.

This decision has been made with the best interests of our students, their families, our staff, and their families in mind.

We have been operating continuously now within restrictions since last September with students at our building and while it is not "as normal" it has worked, and we have relatively low case numbers which we hope to maintain.

The document attached is our updated guidance for operating after 19th July. We hope you will read it and support us in the efforts we are making to keep your child attending training face to face.

We would especially appreciate your support with the twice weekly lateral flow tests that we require on a Monday and Thursday from all students. All details are included in the document attached.

If we need to make any changes to these arrangements then we will contact you, but we are looking to continue as safely as we possibly can for the time-being.

Should you have any questions or comments, please get in touch.

Yours faithfully,

Sue Fielding
Managing Director
